The official taxi partners of Prague Airport are FIX TAXI and Taxi Praha, whose cars will be waiting for passengers right in front of the arrival halls of both terminals. The fare you pay always corresponds to the route travelled and the price of taxi services is regulated on the territory of Prague. You can book a taxi via the website of the specific taxi service or via the Prague airport website (<https://taxi-airport-prague.com/>).

You can also call a taxi of another company. Option is taking an Uber or Bolt, which are a reliable service, more popular than a regular taxi. The disadvantage compared to official taxis of Prague Airport is that the waiting time is usually longer.

### ACCESSIBLE PRAGUE

The historical nature of Prague and its cobbled streets can be a challenge for people with reduced mobility, but there are still many sights to see. Click [here](#) to find out more about Prague accessible sights, parks, and restaurants.

Barrier-free transport is provided by low-floor vehicles, or vehicles allowing wheelchair users to board with driver assistance. These transport connections are marked in the timetable by an accessibility symbol. The Prague Metro is generally wheelchair-friendly, the vast majority of the metro stations are accessible. Persons with reduced mobility can use passenger elevators, directly, or in cascades, to enter or exit the station. Boarding the vehicle is then facilitated by a tilting ramp-platform the buses are fitted with.
